ABSTRACT

This document contains information about New Jersey's public library buildings obtained from a survey of public libraries in the state. The results of the survey are reported in the following tables: public libraries arranged by community (includes meeting room information); public libraries arranged by square footage; public libraries arranged by year of construction; and disabled accessibility in public libraries. Information collected includes population, year constructed, additions, total square feet, number of reader seats, number of meeting rooms, parking information, and disabled accessibility. The data collection form and cover letter are included. (JLB)

REST RMS A/H: handicapped accessible rest rooms
FOUNT A/H: drinking fountain accessible to the handicapped
N: no
Y: yes

The software used in compiling this survey does not print the data in a particular column when the information is unchanged from the previous entry. Therefore, on page 1, Atlantic County Library appears only once but all of its branches appear in the Location column. Entries which are marked with a "--" may indicate either not applicable or not reported.

At the back of the volume we have included a copy of the survey form and the accompanying instructions. Libraries which did not respond to the original survey or who wish to update their information are encouraged to send the revised information to the authors at the State Library.

Additional information that was collected but not tabulated or published in this volume may be requested by contacting Robert Fortenbaugh at the State Library.

The authors would like to take this opportunity to thank all of the library staff who took the time to make this a successful survey.

PLANNING ADDITION: Please answer in the same fashion as in the previous question.

STAFF PC: How many personal computers does the library own that are used by staff? Please check as appropriate what operating systems are in use. Does the library have **PUBLIC USE PC's?**

AUTOMATED SYSTEM: Has the library automated any library operations? If yes, please indicate what components are in use as appropriate. If the library plans to add to its system by the end of 1992, answer yes for that component.

The remaining questions are self-explanatory.

Thank you for your cooperation.

MEMORANDUM

TO: Public Library Directors

FROM: Vianne Connor 609-292-6295
Robert Fortenbaugh 609-292-7854

DATE: October 5, 1992

SUBJECT: 1992 Public Library Facility Survey

In 1984 the State Library published a Survey of New Jersey Public Library Buildings. This document has been widely used by State Library staff, librarians, architects, and others. As the information contained in that publication is now ten years old, we have decided to update the document. We are asking for your cooperation in completing the enclosed survey. We have included a form for each building in your system. For those libraries who responded to the previous survey, we have included the information that was provided at that time. If there are no changes to that data, you need only fill in the lower portion of the survey which contains new questions, some of which are non-building in nature. Changes to the older data should be clearly indicated in the appropriate space. Libraries which have moved into a new or different building have been provided with a blank form for each site.

Once we have compiled your responses, the new edition will be sent to all public libraries.

If you have any questions, please feel free to call either Vianne or Bob at the telephone numbers listed above.

Please return your survey responses by November 20, 1992 to:

Thank you for your assistance.
